

# we want TO HEAR WHAT YOU HAVE TO SAY

Beginning as one small hospital in 1906, today JPS Health Network is an accredited, integrated health network comprised of multiple locations throughout Tarrant County. We are updating the strategic plan for our network, and we want to listen to what you have to say about how your tax dollars are spent. Please join us at any of the four town hall meetings.

If you've got something to say ... we're listening.
