School Press Release

For immediate release, March 7, 2008:

Carroll ISD's Long-Range Facility Committee To Hold Organizational Meeting March 10

Carroll ISD's Long-Range Facility Planning Committee will hold its first meeting at 6:30 p.m. on Monday, March 10 in the library of the former Carroll Intermediate School building, 1101 N. Carroll Avenue in Southlake. The committee has been charged to serve in an advisory capacity to the School Board and Administration on a temporary basis regarding the topic of long-range facility planning.

The committee is comprised of 41 citizens and employees representing each of the school attendance zones. They were appointed by campus administrators, School Board members or Superintendent David J. Faltys. Meetings are not for the public, but are certainly open to the public for observation. At some point the committee will establish a process for local residents and/or school employees to give input.

The group will spend the next several months working to:

- Study existing demographic data and future projections for student enrollment;
- Tour district facilities and assess capital improvement needs in consultation with CISD staff;
- Identify any additional needs or facilities required of the district to effectively carry out its mission long-term;
- Review Carroll ISD's current and projected financial situation, considering all factors, including but certainly not limiting CISD to: a school bond election; attendance rezoning, new construction, building additions, temporary facilities and/or any other options for addressing long-range facility needs; and
- Make a final recommendation for action as part of a long-range facility plan to the CISD School Board and Administration.

For more information, contact the Communications & Marketing Department at 817-949-7080.
